**PERMIT INFORMATION
MAJOR LOGGING**

(required when earth disturbance is over 5,000 square feet or cut and fill is over 100 cubic yards)

Check each box after verifying that
requirement is met for submittal.

SUBMISSION REQUIREMENTS

Verified by Staff:
Date:

- ☐ 1. Completed, Attachment (A) Major Logging Permit Application
- ☐ 2. Property located in a Conservation Zoning District requires a letter from the Frederick County Forest Conservancy Board. Attachment (B) Sample
- ☐ 3. Steep Slope and/or Buffer Management Plan as necessary.
- ☐ 4. Three copies of plot plan. When at all possible, a legal survey should be used. If a survey is not being used, the plot plan can be drawn by hand. It must be legible and needs to include the following:
 - ☐ Shape and size of property, including all property lines (and property line dimensions if possible)
 - ☐ Acreage of the property
 - ☐ North direction arrow
 - ☐ Property Owner name(s)
 - ☐ Street Address of property
 - ☐ All natural resources include: streams, floodplain, ponds, etc.
 - ☐ Limits of disturbances
 - ☐ Entrance to property
 - ☐ Existing and Proposed drainage paths
- ☐ 5. Print out from the Maryland Department of Assessments and Taxation Real Property Data website www.dat.state.md.us.
- ☐ 6. Fees are due at the time of application.

Major Logging Permit

\$	393.00	Major Logging Review/Inspection Fee
\$	60.00	Soil Conservation District Review Fee
<hr/>		
\$	453.00	TOTAL

PROCEDURES

STEP ONE - APPLY FOR THE MAJOR LOGGING PERMIT

- ➔ Applications are accepted in the Department of Permits and Inspections at 30 North Market St.
- ➔ Applications are accepted Monday through Friday, (excluding County holidays) between 8:00am and 3:30pm.
- ➔ To ensure adequate time to complete your submittal, please apply prior to 3:00 pm.

STEP TWO - OBTAIN REVIEW APPROVALS AND PERMIT ISSUANCE

During processing, the Major Logging application will be reviewed by Environmental Compliance, Stormwater Management, Soil Conservation District and Zoning for approval. If there is any additional information required from you, you will receive a hold notice in the mail.

Issuance:

Major Logging permits will be issued at a pre-construction conference between the Environmental Compliance Inspector and the applicant. The meeting must be requested by the applicant. Environmental Compliance will schedule the meeting within 24-hours after receipt of the applicant's request. The applicant will receive the approved permit at this meeting.

STEP THREE - PROVIDE PROPER NOTIFICATIONS

Pre-Notification:

Notice shall be provided to Environmental Compliance Section (ECS) at least 24 hours prior to commencing work.

Notice of Completion:

Notice shall be provided to Environmental Compliance Section (ECS) within 5 days of completing and stabilizing the earth disturbance. Failure to provide a notice of completion and receive an acceptable inspection could result in the assessment of a permit renewal fee.

GENERAL INFORMATION REGARDING MAJOR LOGGING

- ➔ Logging Permit Applications are non-transferable and non-assignable.

LOGGING/GRADING DETAILS

Please Check the
Appropriate Box:

Clear Cut?

☐

Selective Harvest?

☐

Cleared Forest Area: (SF)

The square footage of a forested area where the proposed removal of trees will result in leaving less than 100 trees per acre, where 50% or more of those trees are 2 inches or greater is caliper. *Forest clearing greater than 20,000 square feet is subject to the Forest Resource Ordinance (FRO) requirements. If applicable a "Declaration of Intent" may be used to provide exemption from FRO requirements.

Total Property Area: (SF)

Total Disturbed Area: (SF)

Defined as surface area (length times width) of any excavating, stockpiling, scraping, grubbing, root mat or top soil disturbance or any combination thereof.

Total Qty. of Cut and Fill: (CY)

The measurement of the volume of excavation cut and /or fill as measured by the surface area times depth or height divided by 27

Major Logging Application

PLEASE READ CAREFULLY AND ANSWER ALL QUESTIONS

Conditions Declaration: (If any of the conditions below are Yes, the project is non-standard. You must submit a plan prepared by a licensed professional forester.)

*Please Answer Yes or No
(Y or N)*

- | | |
|--|--------------------------|
| 1. Will the roads or skid trails gradient exceed 15%? ----- | <input type="checkbox"/> |
| 2. Will there be any grade change exceeding two (2) feet of cut or fill? ----- | <input type="checkbox"/> |
| 3. Will the landing decks or loading areas exceed a 10% slope gradient? ----- | <input type="checkbox"/> |
| 4. Will the harvest area and/or its access be located within a wetland or its buffer, or a stream buffer? ---- | <input type="checkbox"/> |
| 5. Will there be any streams, watercourses, springs or flowing water crossed? ----- | <input type="checkbox"/> |

If you answer yes to question 1, 2 or 3 you will be required to submit a steep slope management plan prepared by a licensed professional.

If you answer yes to questions 4 or 5 you will be required to submit a buffer management plan prepared by a licensed professional.

IMPORTANT PLEASE READ CAREFULLY

Requirements

- A. Erosion and sediment control measures shall be installed prior to any earth disturbance except that necessary for installation of the controls.
- B. All erosion and sediment control practices shall be installed and maintained according to the criteria contained in the most recent version of the Maryland Standards and specifications for Soil Erosion and Sediment Control.
- C. All clearing and grading shall be completed in the following sequence:
 - 1. Limit initial clearing and grubbing for the installation of the construction entrance, perimeter controls, and any remaining controls.
 - 2. Install the stabilized construction entrance, perimeter silt fence, and any other sediment controls.
 - 3. Provide temporary stabilization of any area that will not be actively graded within seven (7) days.
- D. All erosion and sediment control devices require continual maintenance. Any controls that are damaged or disturbed shall be restored or repaired before the end of each day.
- E. Development activities shall not impair any drainage, create an erosion hazard, or create a source of sediment to any adjacent watercourse, wetland or property.
- F. Any pumping of water must be filtered and done in accordance of "B" above.
- G. Following initial soil disturbance or re-disturbance, permanent or temporary stabilization shall be completed within three (3) calendar days on the surface areas of all sediment controls, stockpiles, and perimeter slopes: and seven (7) days for all other disturbed area on the site, not being actively graded.

CERTIFICATION AND SIGNATURE OF RESPONSIBLE PERSON

I, the undersigned, do hereby declare that the information contained herein and on any accompanying documentation is true, correct and complete to the best of my knowledge, and that I have the authority to make this application. I further certify that duly authorized representative of Frederick County shall be guaranteed right of entry to the property to inspect site work, materials and plan conformance. I understand that intentional falsification and/or non-compliance with any of the terms and conditions set forth in this or accompanying documents may result in a Stop Work Order, Civil Penalty or Criminal Charge depending on the severity, at the County's discretion.

Nothing herein relieves the applicant from complying with any and all Federal, State and Local regulations that may be involved in conjunction with this application.

DECLARATION OF INTENT

The undersigned owner(s) of the real property described in this application hereby declare my (our) intention to continue and/or place into commercial forestry use. This being done in accordance with the provisions as found in the Frederick County Forest Resource Ordinance (FRO) and COMAR 08.19.01.04 for a period of at least five (5) consecutive, full, taxable years, following the date of the approved site plan or permit.

This declaration grants an exemption for commercial forestry activities under the FRO. If said land does not remain in commercial forestry use, the owner must notify the Frederick County Division of Permit and Development Review. If the owner makes application for an activity, regulated under the FRO, on all or part of the parcel within the five (5) year period, the Division may require the owner to meet the forest conversation threshold, established in the FRO and COMAR 08.19.13. The Division may also assess a noncompliance fee for forested area cut in violation of the forestry exemption.

I (We) declare, under the penalties of law, that this declaration, including any accompanying forms and/or statements, has been examined by me (us) and the information contained here, to the best of my (our) knowledge, information and belief, is true, correct and complete.

Frederick County Forestry Board
Timber Harvest Exam

June 19, 2009

Dear

I met with members of the Frederick County Forestry Board on June 18, 2009 to review the timber harvest plan submitted by : for your property. In addition, since you enrolled your Stewardship Plan dated May, 2006 into a Tax Reduction program I also evaluated the marking for compliance to this plan. Having reviewed the marking both the Forestry Board members and I have concluded that the marking is in compliance with both plans. Therefore we approve the marking and the plan.

The present depressed economic conditions may affect the bid prices for this material. Please be assured that you can delay this harvest if this is the case to wait for conditions to improve.

Please call if you have any questions. I can be reached at 301-473-8417.

Sincerely,

Michael F. Kay
Secretary, Forestry Board
